STOLE CASH AND WAS CAUGHT

WHILE HE WORKED WITH CHECKS GREENE WAS NOT SUSPECIED.

He to 23 and was a Bookkeeper on a Modest relary-Fond of Horses and Moonlight Drives with Friends to Coney Island-Cashier Collins Appropriated \$10,000.

The firm of Reinhard, Siedenburg & Co., cotten brokers, at 75 Cotton Exchange building, caused the arrest yesterday of their bookkeeper. Ernest Jennings Greene, and their rashler, John F. Collins, for alleged systematic robbery. According to the confessions of the two men, as made public by Inspector Me-Laughlin, Greene stole over \$3,000 and Collins over \$10,000. It is thought that the firm may have lost much more than \$13,000.

Greene is 23 years old and unmarried. He lives at 710 Lexington avenue, Brooklyn. His salary as a bookkeeper was comparatively small, yet he rived in luxurious style and always had a plenty of money. His employers knew nothing of this, however, and Greene might have gone on stealing indefinitely had his success not made him rash.

Greene was known in the upper part of Brooklyn as the "Wall Street Broker." He was a high fiver, and was reputed to spend was a high liver, and was reputed to spend \$30 a day. At the Columbia Livery Stables, 4 and d lea by avenue, he kept carriages and horses, and here he was in the liabil of meet-ing his triends who accompanied him on his monalight drives to Coney Island. Mr. Frank W. Darrin, the proprietor of the stables, when seen 1y a 50N reporter last night, said that Greene's horses and carriages were still in the

green's horses and carriagos were still in the stables.

"When I first met voung Greene," said Mr. Darrin, "I got the idea that he had just inherited a fortune. He bought a fast horse and an elegant wagon and put them in my care. Every hight he would call around and take out the wagon. Sometimes he was accompanied by agirl, or two of them, and at other times he came with three young men. He purchased clothing for his companions, and he kept sayeral suits with driving caps for each of them. Some of the caps were plaid, others of a bright reliew color, and when the party started off for the island each of the young men had to wear whatever uniform Greene selected. I never saw a man dress so striishly. Every day he wore a different suit of clothes, and I've seen him come here with as many as three different suits in the same day.

"While down the road he was in the habit of throwing \$20 gol I pieces on the bar of every hotel he and his friends visited. Then when the party returned home in the early hours orecen would order a ceach or two and send his friends home from here. He was the best customer I had. He purchased another carriage, and his harnesses were very expensive—with white collars, silver chains, &c. Sometimes he would rite out one of my stablemen in livery and cut a shine in the neighborhood. less he would rig out one of my stablemen livery and cut a shine in the neighbor-

in livery and cit a same in the designor-hood.

"Although he had horses and carriages of his own, he hired horses from me daily, some-times paying me as much as \$100 a month. One merning he came in and asked me how much I wanted for a horse which he had hired on the night before. I told him \$150. Pulling out a roll of \$100 bills, he handed over the price of the horse so quickly that he took my breath away. The very next day he paid me \$14 for coach and cab hire; in fact, his daily bills often reached this amount. This was the way he spent money all the time for a year past.

bills often reached this amount. This was the way he spent money all the time for a year past.

"Whenever he paid a big bill he gave me his check on the People's Bank of Brooklyn. Last week he paid me \$70, and afterward opened champagne in Cronheim's Hotel. He was in the habit of opening wine by the dozen bottles in the saloons all over the neighborhood. Aside from what money he spent in this manner, he lavished it freely upon women. To a gir whem he was engaged to marry next week he gave a \$500 diamond ring. If he wanted to go two or three blocks away he would hire a cab from me and say when paying his bill: 'Old man, I want to give you a chance to liva.' As to his property in my stable. I intend to hold it, for he owes me about \$100, part of which amount is due on a horse trade I made with him a few days ago."

Greene nosed as George Dixon, a customer of his employers, and would draw on the firm for moncy he wanted. As Bookkeeper Greeno he made out the checks for the money for Mr. George Dixon. By the use of acids he would erase the name of George Dixon and substitute the word "bearer;" or if he did not use acid he would add after the name George Dixon the words, "or bearer." Mr. Sledenburg did not question Greene's honesty and when the bookkeeper presented the checks for Mr. Dixon they were always signed.

Not satisfied with stealing money by menns of this scheme Greene, according to the police, stole \$500 in cash from his employer's safe. The absence of the money was noticed, but Mr. Siedenburg trusted Greene so far that he asked his advice about what means he should take to apprehend the theef. Detectives

Mr. Siedenburg trusted Greene so far that he saked his advice about what means he should take to apprehend the thief. Detectives Heidelberg and Nugent of Inspector McLaughlin's staff were detailed on the case. They reported after investigation that Greene was undoubtedly the thief. The Inspector ordered his arrest and yesterday morning he was taken to Police Headquarters.

He made a full confession and said that John F. Collins, the cashier for Siedenburg & Oo, had been in collusion with him. The police arrested Collins, who also confessed. Collins is 24 years old and lived at Scotch Plains, N.J. He has worked for his employers cieven years. Four years ago he was made cashier.

N.J. He has worked for his employers eleven years. Four years ago he was made cashier. He said that he had been stealing for the last three years and had taken about \$10,000. He says he invested it in a house at Seotch Plains, in a stage line, and in jewelry and diamonds. His plan was similar to that of Greene.

Two checks were found and will be used in evidence. One was drawn on May 31 on the Corn Exchange Bank to the order of C. E. Rich for \$1,550,034. Collins forged Rich's endorsement. The other check was dated June 16, to ment. The other check was dated June 16, to C.F. Rich's order, for \$837.50. Greene was remanded at the Tombs Police Court. Collins is locked up at Police Hendquarters and both will be arraigned in the Tombs this morning.

Western Bank Swindlers,

President Henry W. Cannon of the Chase National Bank received a draft for \$20,000 resterday, which purported to have been drawn on his bank by a bank in Oklahoma Territory. The draft was fraudulent and did not in any way bother Mr. Cannon, as he was fully aware of a swindle now going on to defraud some banks in Kansas City and St. Joseph on the part of awindlers in Perry. Solomon & Co. at 547 Broadway. The salesroom is on the second floor. Two letter boxes near the door showed that the neighborhood has its local nulsance. The address on one box read:

D. J. Selemen, Crank.

The nuisance must have been out early, for the address on the other box read:

David was accompanied by his lawyer, R. J. Haire, Henry Solomon, Bookkeeper Potter. Salesman Marcus, and several other employees were in one corner of the room. The two brothers shook hands. Henry was in the midst of an effusive greeting when David said: "My brother, you ought to be ashamed of

yourself for the way you have treated me." Here he was interrupted by Lawyer Haire. who suggested that the discussion be dropped. David then asked for his jewelry, consisting of a gold watch, a diamond ring, and a diamond stud. These were produced by Henry from the safe.

Now I want my horse and carriage," said David.

"All right," said Henry. "I will have them sent wherever you say."

The transfer of the keys was then suggested by David, but Henry left the place without delivering them, and, after his return a half hour later, said that he would not give up the keys to the safe, which, he said, was his private property. He opened the safe long snough to deliver some of David's private papers. When the dissolution of partnership was referred to, Lawyer Haire said that no legal proceedings were needed; it was a matter which the brothers could arrange between themselves.

Henry left the store and did not return, David remained a few hours, answered a pile of letters of congratulation, and gave some directions for filling new orders for goods. He had nothing to say to any of the employees, except his brother, Lemon, who refused to testify against him at the examination before the Sheriff's jury, Lemon Solomon has been a salaried sales man many years. No employees will be discharged until the next pay day, Oct. I, when all who testified against David on the witness stand will be asked to depart, if David has his way.

After leaving the stere David drove to his
brother's rysidence, 55 East Sixty-fifth street.
Henry was not there, but his wile and her
mother had a pleasant word for David. Mrs.
Selomon said last evening that it ended in a
good crying spell, and she seemed sorry that
her hustand had not been there to share it.
David reminded them of the \$50,000 suit for
damages which hesaid he would press against
his brother. Then he went to his new home
at 237 West 123d street and did not return to
the store.

Henry Solomon in the mean time was busy
with his attorney, Adolph L. Sanger. After
David had left the store a temporary injunction was issued by Judge McAlam of the Superior Court restraining David from interfering
with the Jusiness of D. J. Solomon & Co. The
bond was fixed at \$250 and the hearing was
set for Sept. 27. It is understood that this
movement was made by Henry Solomon to
secure a dissolution of the partnership in
which he holds a one-third interest. At the
suggestion of Lawyer Haire, the brothers
agreed before the injunction was issued that
each should have access to the firm's books.

little Ahearns. Unaware that their mascot was stolen, and filled with enthusiasm that was proof against a threatening sky, 1,500 Ahearns, great and small, marched away yesterday morning, with bands playing and banners flying. Pretty girls at windows along the line of march cheered as column after column of stalwart braves swept by.

Purple badges decorated the left lapels of the Ahearns' coats, and in their hands they carried bamboo canes. Everybody supposed his pigship was safe in the custody of some tried Ahearn, and, in consequence, everybody

was happy.
Their loss was discovered on arriving at Point View Island, the destination of the outing. Here the official pig keeper announced in awestruck tones:

"Fellows, the mascot is gone!" A funeral procession would have been joy in comparison to the crowd that heard this announcement, "Hully goo! What's that " demanded sev-

Instead, the Ahearns all made a dive for sheiter, with the rain beating dismal tattoes on their heads and backs. They tried the games during the afternoon, but the contestants in the potato race ran a dead heat and aloan man won the fat men's race. John Sullivan was his name. He weighed 219 pounds, but then he was almost 7 feet tail. The single and married men tried to play a game of ball until one of the Ahearns, dressed in an oil suit and carrying an umbrelia, sallied down to the ground and asked if they didn't want a boat to row around the bases. A team from Flushing next tried a game with the Xaviers, but after both sides had the color washed out their uniforms by the rain they quit, too.

The only event of the day that was an outand-out success was the half-mile run for an umbrelia. Everybody on the ground without one entered for the match, until there was a string of contestants in line that would stretch across City Hall Park. C. Rugen won the race, but had to wait until the association went home again before he received his prize.

Late in the afternoon the clambake was announced in readiness, and, forgetting all about the rain and the less of the groused pig, the Ahearns were soon up to their ears in good things that loaded the long tables.

Among the Ahearns who were not hoodooed by the loss of the pig were Judge James J. Oliver, Francis O'Conner, John C. Fitzgerald, Assemblyman Roche, T. J. Campbell, A.T. Dougherty, Justice J. H. McCarty, Daniel E. Dowling, Justice J. H. McC

PASTOR MARSHALL TIRED OF IT. Request to Be Relleved Because a Minor-

tty of Mis Church Boesn't Want Him. An aggressive minority in the First Methodist Church in Hoboken has made things so unleasant for the pastor, the Rev. James W. Marshall, that he has decided to ask to be ransferred to another charge.

When the Newark Conference was in session last April a delegation from the First Church urged the appointment of the Rev. Mr. Wilson to the pastorate. Mr. Wilson belongs in Delaware and is connected with the Wilmington Conference. To appoint him it would have been necessary to make a vacancy by dropping ome minister out of the Newark Conference. and that the Conference refused to do.

Mr. Wilson's adherents were very indignant ecause he was not appointed, and they have emained indignant ever since. Some of them are members of the Official Board, and one or two were so intense in their opposition to Mr. Marshall that they declared he should never occupy the pulpit or the parsonage. He has occupied both, but his relations with the opposing element in the church have been so strained that he has decided to retire as soon as the rules of the Methodist Church will

strained that he has decided to retire as soon as the rules of the Methodist Church will permit.

It was rumored in Hoboken yesterday that he had resigned and gone away, but the rumor is unfounded. Mr. Marshall was at home in the parsonage last night. He said he could not resign if he wanted to, but he has no desire to remain in charge of the church. Consequently he sent notice on Friday last to Presiding Elder J. B. Faulks that at the next seasion of the Conference, in April of next year, he would ask to be transferred to another charge. A similar notice was sent to the Official Board, which met Saturday evening. The Quarterly Conference, which meets three months from now, will also be notified of his intention.

Mr. Marshall said that the friction was all due to a small minority of the officers and congregation. Of the twenty-five members of the Official Board only six are opposed to him. The other nineteen are his warm friends and supporters. About fifteen percent, of the congregation side with his orponents in the Official Board only personal in the opposition to him. It simply arises from the chargin of the people who worked so hard to have Mr. Wilson appointed.

It was reported just after Mr. Marshall's appointment that the Official Board showed its resentment by reducing the pastor's saiary from \$2.500 to \$1.200. This is not true. Pastor Marshall's salary has never been fixed. Dr. Barnes, his predecessor, received \$2.500. It is customary when a new mastor is appointed for the Official Board to meet to fix the salary.

The Board decided not to meet on this last.

ed for the Official Board to meet to fix the salary.

The Board decided not to meet on this last occasion until it was decided whether Mr. Wilson was to be appointed. No action has been taken since in the matter. Mr. Marshall receives his salary in irregular sums and at irregular times, and he does not know what the stated amount is.

Trouble similar to the present occurred in this church five years ago. Dr. Barnes, a former Presiding Elder, the pastor, was opposed by a small minority. He remained for the full term of five years and long before the expiration of his term all the opposing elements had become reconciled.

MORE BURGLARIES AT ISLIP.

The Perpetrators Supposed to Have Landed from a Now Missing Sloop.

Banylos, L. I. Sept. 25-Burglars made another raid in Islip last night. The summer residences of Samuel T. Peters of the firm of Williams & Peters, wholesale coal merchants at 1 Broadway, New York, and Schuyler Parsons, broker at 136 Pearl street, were robbed. The Peters house was thoroughly ransacked and a large amount of valuables stolen.

The family refuses to say what the amount stolen was, but it is known that it must be several thousand dollars' worth of jewelry, silverware, and other valuables. All the silverware was tested by the thieves, who took only solid ware and left the plated ware.

When Mr. Peters was in town some time ago he purchased three pearl pins, and there was some question as to whether one was genuine. The thieves even tested these pins and left the one which was supposed to be imitation.

The burgiars were evidently frightened away from here, as Mrs. Parsons was awakened by the barking of her doc, which was locked up in the kitchen, and gof up and lit the gas. She heard no suplicious noises and went to bed again. In the morning the doors down stairs were found open, but nothing but the three guns had been taken.

The local officers are convinced from their investigations that the thieves came to Islip in a boat, and are the same gang that looted the residence of John Gibb last Friday night. There is believed to be four uen in the gang. Last night four strange men held up a young man named Claude Truax, and asked him many questions about the location of the residences of various wealthy people.

This morning two strange sloops were seen anchored in the bay. One of them left at an early hour, before the robberies were known. Constable Griffin boarded the remaining sloop and found it in charge of a young man named

in any way connect him with the robberies was found.

It is thought that the robbers are the same piratical crew that have been operating along the north shore with a black shop.

Three years ago the wealthy residents of Babylon, liay Shore, and Isin formed themselves into a protective association, and, as a discouragement to burglars, offered a reward of \$1.000 for the arrest and conviction of any burglar operating in these towns.

The first burglar captured after that was a drunken man, who broke into a Babylon butcher shop and stole a pair of chickens, which he sold for drink. As the society had not specified what kind of a burglar the reward should be paid for, the drunken man's captors collected the reward, and the society was so disgusted at having to pay so much for so small a crime that it immediately disbanded. Since the recent burglaries about here there is some talk of reviving it.

TOLD A TALE OF TORTURE,

A Negro Horse Thief Whose Story of

Burns on His Fret is Discredited, New ORLEANS, Sept. 25.—A negro horse thief from St. Bernard parish, named John Williams was captured in Kenner, Jefferson parish, on Saturday night, locked up in jail, and the St. Pernard authorities notified of his arrest. A deputy sheriff from that parish went to Kenner late last night to get Williams, but found him suffering from badly burned feet. Williams said that when he was arrested he was mistaken for Julien, the hiding negro murderer, and surrounded by a mob of white men, who at first wanted to lynch him. A few level-headed men in the mob knew Julien and prevented the lynching. Before that the mob tried to make him confess by torturing him. hey burned his hands and feet, put him on

They burned his hands and feet, put him on his back and burned his feet again. After inflicting these tortures on him, and getting nothing from him, the mob decided he had nothing to confess.

The white people of Kenner tell a different story. They say that they heard that the negro was wanted for horse stealing during the afternoon. About dues he rode into town and tried to sell the horse he had stolen to one of the policemen for \$5. The policeman immediately put the negro under areas. He was placed in the town jail, and during the night it is said that a fire was found in his coli. An alarm was sounded, and the flames were immediately extinguished and it was found that Williams was trying to burn his way out. The white men say that he had destreyed two buckets that were in his cell and used them for kindling the fire. They declare that he burned himself in trying to get out of the wooden jail. The jail bears evidence of having been burned. Only a few believe that the negro was tortured.

The Rhode Island Indians Get the Land Fever and Talk of Treaties. PROVIDENCE, Sept. 25.-The Narragansett

Indians want their lands, and to-day they neld a hearing at their old tribal headquarters in Charlestown to consult as to the best methods of regaining them. Recently Dr. B. G. Noka, the head man of the Narragan-setts, was summoned by the "unseen spirit" to make a claim upon the white people for the land which was set aside contract, and Deputy Sheriff Verplanck put a lien on the effects of the village, consisting of desks, safe, books, and papers. This morning these effects were sold by Deputy Sheriff Verplanck and bid in by Henry C. Henderson for \$18.

The village authorities now purpose to recover the goods, and have secured as their attorney County Judge Isaac N. Mills of Mount Vernon.

WHEELMEN IN SESSION.

A Victory for President Burdett and His Followers. BUFFALO, Sept. 25.-The attack upon the

administration of the L. A. W. at the special

meeting to-day was a conspicuous failure The President and Executive Committee were sustained in all that they had done and exonerated from all blame. This was no packed house of whitewashers. Out of 234 members, 173 were present in person or by proxy, representing eighteen State divisions. The vote to sustain was 113 to 48. The fight egan as soon as the members had taken their seats. The investigation of the af-fairs of the League was first taken up and considered in Committee of the Whole President Burdett calling Mr. Luscombe to the chair, read a financial statement showing a credit balance of \$14,285.07. He stated that he did not know how the rumor that the affairs of the League were being illegally conducted had gained credence. G. A. Forkins of Massachusetts arose as the chief prosecutor and catechised concerning two notes of \$500 which had been made by the League. Fresident Burdett explained that an indebtedness of \$1,300 had been satisfied by the Executive Committee giving this paper. Then the question was raised whether the committee had power to make such obligations. It was shown by the constitution that they had not exceeded their powers. Step by step the opponents of the present administration were forced to retreat, every charge being met with redutation or explanation. Finally a vote was taken upon the question to sustain and exonerate the Executive Committee. It resulted as above. Then the critics attempted to amend the constitution, taking away some of the supreme powers vested in the Executive Committee. Here they had more following, and doubtless would have succeeded, but President Burdett's friends were out for a complete vindication, and they ressoned, to deprive their committee of its powers after demonstration that these powers had not been unwarrantably or improperly exercised, would be practical admission that they tacked confidence in them. So the Committee on Rules and Regulations reported adversely to acting on any amendments which had not been printed in the call for the meeting. This was impossible to obtain, and the amendments fell. They will be taken up again at the annual meeting next February, with a fair show of passage, as all even the warmest friends of the administration, admit that the constitution is imperfect for an organization representing the Interests of thousands of eyelists is the United States.

One amendment was passed, and that will prevent hereafter a handful of soreheads callhe did not know how the rumor that the affairs of the League were being illegally conducted

cyclists in the United States.

One amendment was passed, and that will prevent hereafter a handful of sorcheads calling special meetings and putting the League to great expense for the sake of airing their grievances. It alters article 4, section 5 of the constitution, and provides that the written request of a majority of chief consuls shall be necessary to compet the Iresident to call a special meeting, and that no business shall be considered at that meeting which is not specified in the call, which must be printed in an official organ thirty days prior to the meeting day.

LINING UP AT HARVARD.

Thought of a Game with Princeton.

CAMBRIDGE, Sept. 25. -One cannot tell deffnitely at this early date what Harvard's attitude toward Princeton will be this fall. The influence of graduates may change the present indications. It cannot be denied, howshown for resuming football relations with Princeton. This feeling seems general among the football men and the few students who have returned. The arrangement for a game with the University of Pennsylvania on Thanksgiving Day has tended to foster this indifference, for a date later than the Thanksgiving one is not to be thought of, while one before the Yale game is not desirable, according to present opinion. Harvard's one thought and aim is to heat Yale, and anything which might lessen her chances for this is not likely to be considered favorably. A big game with Princeton a week or even two weeks previous to the one at Springfield would be hazardous, not only because of the risk of in-juring players, but because it might disclose to the Yale team the whole strength and hazardous, not only because of the risk of injuring players, but because it might disclose
to the Yale team the whole strength and
weakness of the Harvard eleven. Whether or
not subsequent events will overrule these objections no one can say now with accuracy.
The 'varsity candidates to-day lined up for
the first time for elevens. The men had gone
through the regular morning practice, and
also had been hard at work for over one hour
in the afternoon when Capt. Waters lined
them up. George Stewart, the head coach;
Porter, the famous '88 half back, and Camp
Forbes were on the field directing the play.
It was sharp and favorable for the first day of
regular work, but it showed plainly the tremendous task which coachers and captain
have before them. There are many desirable
players who have not yet returned to college,
though all of last year's eleven still in college
are back, with the exception of Newell. He is
expected on Thursday, and by that time the
whole available force of players will probably
have presented itself. Among the noted playwhole available force of players will probably have presented itself. Among the noted players who are expected for Thursday is Garfield, the star half back of Williams College. His work will be watched with interest, as there is a vacancy behind the line which needs a good man to fill. Some one must be found to take the place left empty by Lake, for it's not a sure thing that Capt. Waters will continue at half. Acton is the only one who seems fitted to take in the lone guard, and he is again having trouble with his ribs, which were injured last fall. Thus it may be necessary for Waters to return to his old position. The old players have been at the training table for over a week. This is the first time in the history of football at Harvard that the eleven has gone to the training table before the college has opened. They practice twice a day.

FIXING FOR THE BIG RACE.

LORD DUNRAVEN AND THE CUP COM-MITTER TO MEET TO-DAY.

The Valkyrie Nearly Ready for Her Trial Spin-Her Crew Reseus a Drowning Man -Lord Danraven Accepts Ex-Commodore James D. Smith's Invitation to the Banquet to Be Given Oct, 2-The Vigilant Tries a New Room, and Is Lib-lied for \$500,

The meeting between Lord Dunrayen and the members of the America's Cup Committee. which was scheduled for yesterday, did not take place, owing to his lordship being indisposed, a slight attack of gout preventing the Valkyrie's owner from meeting the members of the committee, as was at first proposed.

However, ex-Commodore James D. Smith, Chairman of the Cup Committee, was an early caller at the Waldorf yesterday morning, and, after paying his respects to the Earl, formally invite! him to the dinner which will be given in his honor at Dalmonico's on the evening of Oct. 2.

Commodore Smith, when seen later in the day, said that he had enjoyed a very pleasant call, and that Lord Dunraven had cordially accepted the courtesies and privileges of the New York Yacht Club, which had been ex-tended to him. He added: "I had a very pleasant talk with the Earl, and he is a true sportsman and yachtsman in every sense of the word. What I principally wanted to know was when it would be agreeable for him to meet the members of the America's Cup Committee to arrange the preliminaries for the cup races, which will begin on Oct. 5. Lord Dunraven agreed to meet the members of the committee this afternoon

and talk matters over." Later in the day the members of the Cup Committee met informally, and it was agreed that they should meet Lord Dunraven at the New York Yacht Club's Madison avenue house to-dy at 3:30 P. M., instead of at Mr. Smith's Broad street office, as at first proposed. The Cup Committee, which consists of James D. Smith, Chairman; A. Cass Canfield, secretary; Latham A. Fish, Philip Schuyler, and J. Frederick Tame, are all

retary; Latham A. Fish, Philip Schuyler, and J. Frederick Tams, are all in town now with the exception of Mr. Schuyler, who is in Europe. A number of minor details in connection with the hour of starting the race each day, and the conditions under which the cap must be held in case the Valkyrie should be successful in winning it, are likely to come up at to-day's meeting, and it is not at all unlikely that the document known as the "New Deed of Gift" will be protty thoroughly discussed.

As already announced in The Sux, Mr. Charles Keer, Lord Dunraven's brother-in-law and private secretary, will protably represent him on the Vigitant in the coming race. So far no one has been selected to represent the New York Yacht Club on the Valkyrie. A number of well-known yachtsmen have been suggested for the place, but as yet the committee has taken no decisive action in the matter. Lloyd Pharnix, the well-known owner of the Intrepid, has served in this capacity on more than one occasion and can do so again if he cares to. Among the others whose names are being considered are Rutherford Stuyvesant, the owner of the schooner yacht Palmer. Hear Commodore Archibald Rogers, who built the cup defender Colonia, and J. V. S. Oddie, the club's popular secretary. Among those who have been invited to be present at the dinner to be given to Lord Dunraven by ex-Commodore James D. Smith on Oct, 2 at Delmonice's are the Marquis of Ormonde, Lord Wolverton, the Hon, Hercules Robert Langische, the Hon, Arthur Paget, Commodore E. D. Morgan, Vice-Commodore Archibaid Rogers, Secretary J. V. S. Oddie, the club's popular secretary. Among those who have been invited to be present at the dinner to be given to Lord Dunraven by Ex-Commodore Hilliam Butler Duncan. Rear Commodore Archibaid Rogers, Secretary J. V. S. Oddie, Treasurer F. W. J. Hurst, Latham A. Fish J. Fred Tanus Philip Schuyler, S. Nicholson Kane, Chester Griswold, Irving Grinneil, Fleet Capt. Governeur Kortright, C. Gliver Iselin of the Vigilant, Gen, Charles J. Patne and John II, Pa

noon.

Under Capt. Cranfield's direction the crew is rapidly bringing order out of chaos, and by tomorrew night at the intest the Dunraven cutter will be ready for her trial spin. Her howspit, it seems, is a new one, and is slightly longer than the one she used in her English races.
It is said that no larger head rig will be used. but that the change is made simply to separate the forestaysall and jib a little so that they will draw better. Designer Watson and Sallmaker Ratsey came down on the tug Lewis Pulver at about 10 o'clock, and were on hoard all morning superintending the rigging of the new bowsprit. They left about 1 o'clock and returned again at 4 o'clock with a big coil of galvanized wire, which will be used for bowsprit stays.

gaivablied wire, which was to bow they were sprit stays.

In response to a query as to how they were getting along, Designer Watson laughed and said: 'Oh we are making first-rate progress. All our spars and running rigging are in place now, and, berond a little rigging, cleaning, scraping, and oiling, we are practically ready to bend our sails. We won't go out be-

ready to bend our sails. We won't go out before Thursday, though."

During the morelug hours a lot of superfluous dunings was taken asilore, and the Valkyris was lightened considerably by the transfer of a number of iron water tanks and extra stores which were used on the trip over. They were all stored away in a neighboring sail oft, along with a number of small cruising sails.

extra stores which were used on the trip over. They were all stored away in a neighboring sail loft along with anumber of small cruising sails.

Out on the end of the big hollow beom a sailor worked all afternoon fastening a blue and gold star on the boom end, which while not a novelty on old-time sailing vessels, is a new wrinkle in yachting over here.

The Queen Mai, which is now owned by Mr. Porcy Chubb of this city, one of the best boats Designer Watson ever turned out, was anchored just in front of the Dunraven cutter yesterday, and, except for the difference in size, it was almost impossible to tell them apart. They both have the same Homan nose or bow, and at a distance their buils and counters could hardly be told apart. A close examination, however, shows a number of differences.

On Sunday night, while a prayer meeting was being held in the Valkyrie's cabin, the devotions were suddenly interrupted by a series of piereing yells. Several of the crew rushed on deck and saw a man struggling in the water near the yacht and an overturned rowboat drifting away from him.

The Valkyrie's gig, which was fastened astorn, was brought hid requisition, and in a jiffy the drowning man was saved. He declined to give his name, and after being rowed ashore disappeared up Fifty-fifth street.

The report that Lord Dunraven had challenged for the Breuton's Reof Cup, now held by Royal Phelos Carroli's yacht Navahoe, was emphatically denied by Lord Dunraven, Secretary Kerr. H. Maltiand Kersey, Designer Watson, and Cupt. Cranfield, who agreed in saying that no challenge had been sent, and none would be. Designer Watson said: "We could not race her if we wanted to, as we will probably be on our way back before she gets here."

could not race her if we wanted to, as we will probably be on our way back before she gets here."

Up at New Rochelle, where the American cup defender Vigilant lies off "All View." C. Offer Iselin's beautiful summer home, there has been a good deat of activity lately, and the Tobin bronze boat has been tried under all sorts of rigs and conditions during the past ten days. All three of her mainsails have been bent and used and three different sets of head rigs have been ried, with a view of finding out just how she works under each. These precautions, while apparently superfluous in their way, have been of great value to Mr. Iselin and Cap. Hanson, and it is safe to say that the Vigilant will come to the line in oven better shape than she did in the trial races, which is saying a good deal. Her new Oregon pine boom, which was brought from City Island on Saturday, was fitted to the Vigilant yesterday, and she took a short trial spin across the Sound to Cow Bay.

There was a good easterly breeze blowing and the American representative covered the six knots at a great rate of speed. Perry Beimont and a number of the members of the syndicate which built the Vigilant are expected at New Rochelle some time during the week and Mr. Iselin expects to give them a farewell sail before she is finally mailed out of the water.

Mr. Iselin said yesterday that he hoped to

When they returned to the hotel they were met by Lord Wolverton and Col. Paget. The ladies and gentlemen then took a short walk on the avenue. At 5% o'clock Lord Dunraven and the Countess went for a drive in Central Park, returning to the hotel about 7 o'clock. In the mean time the Hon. Mr. Kerr, the Earl's brother-in-inw, and the two daughters of Lord Dunraven were driven to Delmonico's, where they dined. About 19:30 o'clock the Earl's brother-in-inw, and the two daughters walked through the corridor of the hotel and joined two members of his party in the palm garden of the Waldorf.

His lordship walked with the assistance of a heavy cane, and the bottom of his right trouser leg was turned up a couple of inches. In a few minutes Mr. Kerr and the ladies drove up in a carriage and joined the party in the garden. The ladies retired about 10:30 o'clock, while the gentlemen remained and finished their cigars.
